

Make Birch the Home for your POTS Opportunities

POTS service is an integral part of your customers' networks and a significant opportunity for partners to generate revenue and show cost savings. Multi-location enterprises want to reduce the cost and complexity of their network and create efficiencies through consolidation. Birch provides a fully managed, white-glove experience for partners and customers who choose our POTS services. Our Platinum Experience project management and support ensures a successful implementation, and with rates that are guaranteed, no hidden charges, and invoices that are simple to understand, Birch delivers on our promises to your customers.

Why Partners Choose Birch for POTS

Birch stands out in the channel as a trusted managed voice provider that partners can count out for multi-location enterprise customers:

- Transparent pricing with no hidden fees
- Pricing guarantee so rates won't change unexpectedly
- Platinum Experience installation and support
- Invoices that are simple and easy to understand
- Competitive and straightforward commission plan

Unique Approach to Pricing

Birch's pricing methodology is unique in that we offer an "all in" approach. Our Monthly Service Rate is inclusive of all local and IntraLATA usage, FCC and LNP charges, and all commonly used features.

Birch does not impose surcharges, such as PICC, Property Tax, Bill Access Recovery Fee, etc.

Support You Can Count On

Birch offers Gold Elite Advantages for POTS customers with \$5000+ MRR:

- Elite Team Account Management
- Line Audit and Inventory Management
- E-Console Account Management Portal
- Specialty Billing Reports
- Project-Managed Conversions
